PROFILE

Full-Stack Web & Mobile Developer

Passionate Web Developer with a solid foundation in front-end technologies (HTML, CSS, JavaScript) and hands-on experience in back-end development using Node.js, Express.js, and RESTful APIs. Currently expanding front-end skills with React, while also converting web applications into native Android apps using Android Studio. Dedicated to building efficient, scalable, and user-friendly digital solutions.

BACK-END DEVELOPMENT

- **Core Node.js:** Built applications using Node.js with a strong grasp of asynchronous programming and Event Loop architecture.
- **RESTful APIs:** Designed and developed structured REST APIs, including:
 - **Authentication & Authorization:** Secure user login, signup, and access control.
 - **Products API:** Full CRUD operations for product management.
 - **Comments API:** Features for managing user comments and interactions.
- **Integration & Scraping:** Integrated external REST APIs via Axios, performed web scraping, and implemented database seeding.

FRONT-END DEVELOPMENT

- **Core Web Technologies:** Proficient in building responsive, interactive interfaces using React.js, JavaScript (ES6+), HTML5, and CSS3.
- **Web-to-Mobile Conversion:** Experienced in converting web applications into native Android applications using Android Studio.

SKILLS

Frontend Skills:	HTML5 & CSS3, Vanilla JavaScript (ES6+), Responsive Web Design
Backend Skills:	Node.js, Express.js, RESTful APIs
Databases:	MongoDB, SQL
Tools & Platforms:	Git & GitHub, VS Code
